

# Staking Proposal of the TLD

leMetaverse/  
LeBlockchain/

 namebase

handshake

Dear Investors,

It is my pleasure to share the opportunity for your group to invest in the Staking of LeMetaverse/ Handshake TLD on [namebase.io](https://namebase.io).

As per our research, the Web3 TLD market is not only truly decentralised, but offer a HUGE ROI for early backers, partners and VCs.

Your group has been selected to partner with Web3Domains.Auction to develop as a pilot project .LeMetaverse/ and .LeBlockchain for the Francophone market.

There are 410M French speaking people in the world and our humble forecasts are:

Short Term - 1% - 4,100,000 x €10 = €41M

Long Term - 10% - 41,000,000 x €10 = €410M

Please note this is on an annual basis as domains are renewable each year. We are seeking €2.5M to set up the team which will market and service our TLDs. €2.5M will secure you 50% equity and profit sharing of .LeMetaverse/ TLD. Alternatively €5M will secure you 100% of the TLD.

Thank you to confirm your interest.

Best regards,  
Sebastien Staub
